

To whom it may concern

We hereby declare that the admission process of the Aeronautical and Airsports Association (AAA) into the FAI is in progress and will be finalised at the next General Conference to be held in October 2019.

FAI is aware of the situation in Hungary and we strongly support the AAA to act as NAC in Hungary for the solid reputation of its members.

We have to jointly work for the sole interest of the Sport Aviation community in Hungary and we endorse the AAA to take immediate actions to support all the Hungarian pilots.

Very truly yours

Marina Vigorito  
FAI Executive Director
